

4 Channel Low Voltage Lightning Diverter

PTE0340

PAE340 (PCB only)

Overview:

The JVA Dual Channel Lightning Diverter is the must have device when installing a ZLM4 in lightning prone areas. It provides protection for the ZLM4 on all 4 loop wires ensuring a lightning strike on, or near the fence, is safely diverted to Earth. Its two stage protection can withstand a lightning surge of up to 2500 Amps limiting the voltage to the ZLM4 to an acceptable 60V.

Features:

- Wiring protection
- Affordable sacrificial security component
- Provides a highly visible indication of a lightning surge

Specifications:

Protection Level		2.5kA surge[1]
Size	Height: Width: Depth:	135 mm 128 mm 40 mm
Weight	Product: Packed:	230 g 255 g

Package Contents:

- PAE340 (4 Channel Low Voltage Lightning Diverter PCB)
- PAE340 Enclosure (non-sealed)

Warranty:

3 Year Manufacturer Warranty (excluding lightning damage)
