

# JVA Water Monitoring Mains System

PTE2801

## Overview:

The JVA Water Monitoring Mains System is the mains based water monitoring solution in the JVA Agricultural Electric Fence product range. The water monitoring system has an integrated Wi-Fi Anywhere and Wi-Fi Gateway. Providing a Wi-Fi hotspot from cellular 4G coverage, the Wi-Fi Anywhere enables the Wi-Fi Gateway to have wireless communication to JVA Cloud Router. With the Cloud Router app the water level can be monitored remotely from anywhere in the world.

## Features:

- Integrated Wi-Fi Anywhere™<sup>1</sup>
- Integrated water level sensor
- Compatible with any 4G network<sup>2</sup>
- Connect up to 10 Wi-Fi enabled devices at once
- External SMA antenna included as standard<sup>3</sup>
- Weatherproof sealed plastic enclosure
- O-ring sealed case for ant and moisture protection

<sup>1</sup> Internet connection depends on network coverage

<sup>2</sup> Compatible with any Australian cellular operator, only data connection is required

<sup>3</sup> Small external cellular antenna included (4G)

## Specifications:

<b>Connect</b>	Wi-Fi Devices / IP Energizers	Up to 10 devices
<b>Size</b>	Height: Width: Depth:	120 mm 200 mm 56 mm
<b>Weight</b>	Product: Packed:	1.5 kg 2 kg
<b>Range</b>	Line of Sight	20m

## Package Contents:

- JVA Water Monitoring Mains System
- Integrated Wi-Fi gateway and Wi-Fi anywhere
- Integrated water level sensor
- Mains power adapter
- External battery leads
- Instructions

## Warranty:
